1. Call to Order by President of Board
2. TLC Update
3. Student Achievement Data
4. Technology Report
5. Adjournment

Board Notes May 1, 2017

We have 3 agenda topics to discuss. This is a work session so no action will be asked of the school board. We will have pizza in the board room at 5:30PM.

2. TLC Update – Our principals and Mr. Adams will be present to discuss the success of our year one implementation. Mrs. Sherwood will be at her last UNI CLM class and not able to join us.

I have witnessed firsthand great success with the TLC program. We are looking at making some adjustments to our program and those changes will be discussed.

3. Student Achievement Data – The principals and Mr. Adams will present our achievement data for the 2016-2017 school year.
4. Technology Report – Mr Roed and Mac will be present to share with the board a first year report on the very successful Chromebook implementation. They will also give a run-down of proposed projects for the upcoming year. Many departments spill into technology expenditures and supervision. That creates challenges for David and Mac as well as increases their work loads.
